Solved: I tried the "CHANGELOG.txt" files and I had no luck. I also tried the.exe files and no luck. A: I solved it. I closed the program, then quit my console and reopened it. Then I entered the following command (in the command prompt, DOS) GameLauncherRun "C:\Users\ABoyz\Desktop\The Game Camera\The Game Camera FSX EXP XP\The Game Camera FSX EXP XP\simplugins\simplugins panel builder\simplugins panel builder\bin\freescrip" I was able to launch the game through the command line. 'm a massive baseball fan, I've been following the Cubs for as long as I can remember. When the weather gets cold and I don't have to go outside, I have to be inside, what better way than to watch baseball? 2. How is it watching the Chicago Cubs? Although the Cubs are a local team, I wouldn't say it's a game that I get to see all too often. Luckily, this was the exception to the rule. I loved being a part of this game at Wrigley. And with the way things have been going, I'll have to be very patient to go to another game. The emotional rollercoaster that the Cubs ride is almost a party atmosphere. You have one pitch where you feel like everything is in the team's favor. Right as it seems as though the Cubs may be able to eek out the win, the game is quickly lost, resulting in gasps and sighs for Cubs fans. It's almost like you can see the team's emotions through the game. One pitch that pops out is crucial in a deciding game. In the game, the Cubs' game 7 comeback was a true reflection of the emotions that fans felt as well. And it seemed like the entire city was there, cheering in support of their favorite baseball team! A perfect ending for the team that so many believe will end up as the World Series Champions. 1. The way it ended, how was it? The way that the game and game 7 ended was one of the best games of my life. The winning streak was the team's third best season winning streak f678ea9f9e
